Transport and Climate Change

Discussion meeting with international experts on “Essential Transport indicators and their practical applications”

23 June 2014, 13.00 – 15.30

VIE Hotel Bangkok, VIE Function 3&4, 12th Floor

Objective

One of the important objectives of Transport and Climate Change project (TCC) is to improve the data monitoring system in transport sector. Accordingly, we would like to share our international expertise with national stakeholders. Hence, project will organise the “Experts discussion on “Essential Transport Indicators and their Practical Applications” with the aims to: 1) To share regional knowledge and experiences from international expert(s) on essential transport indicators which has been widely used internationally, 2) To elucidate how important those transport indicators are in the planning and monitoring of sustainable transport policies/measure, and 3) To update the current situation of transport data gathering and exchange it among related stakeholders in Thailand. During June 2014, the Transport and Climate Change (TCC) project will have a visit from an international expert, Mr. Sudhir Gota. The Transport and Climate Change project would like to take this opportunity to invite you all to join this event. We believe that this seminar will provide necessary background of transport indicator and lead to the improvement of transport data/indicators in Thailand
