

Transforming Building and Transport Sectors through Nationally Appropriate Mitigation Actions (NAMA)

5-7 May 2015

Manila, The Philippines

Objectives

- Present partner countries' preliminary building and **transport sector NAMA** priorities, and to discuss the mitigation potential, as well as the specific capacity building, finance and technology needs associated with identified priorities;
- Further strengthen regional network to support NAMA activities by introducing relevant, existing platforms and initiatives that can potentially support NAMA development and implementation;
- Examine how NAMAs can help sustainable transport policy development and implementation;
- Apply the concept of transformational change to **transport NAMAs** ;
- Enhance knowledge on the status of **Transport NAMAs** worldwide, support mechanisms and the road to Paris.

Transport Specific Sessions

- Tuesday afternoon: Financing Transport NAMAs
- Wednesday: Transformational Change through Transport NAMAs & Overcoming Data Issues in the Transport Sector
- Thursday: The Road to Paris and the added value of Transport NAMAs & Country Specific Sessions (the Philippines, Malaysia)
